

# MAXIM ABRAMCHUK

Minsk, Belarus

+375 29 530-0201 ♦ maximabramchuck@gmail.com

## EDUCATION

---

**Belarusian State University of Informatics and Radioelectronics, Minsk**

*2013-2017*

Faculty of Information Technologies and Control

B.S. in Computer Science & Software Engineering

## HAVE EXPERIENCE WITH

---

<b>Operating Systems</b>	Linux (Ubuntu, CentOS), Mac OS X
<b>Programming Languages</b>	Ruby, Javascript (ES5, ES6), Coffescript, Haskell, Python, Typescript, Bash
<b>Frameworks</b>	Ruby on Rails, Angular, Ionic, Ember, Polymer
<b>Server technologies</b>	Nginx, Postfix
<b>Markup and Typesetting</b>	HTML, Jade, Slim, CSS, SASS/SCSS, Less, Bootstrap, Stylus, JSX
<b>SQL Databases</b>	PostgreSQL, MySQL, SQLite
<b>NoSQL Databases</b>	MongoDB, Redis, Datomic
<b>Programming paradigms</b>	Imperative, Object-oriented (class-based, prototype-based), Functional
<b>Tools</b>	zsh, git, emacs, vim, tmux
<b>Other</b>	ElasticSearch, Firebase, Cordova, Jquery, Lodash, Capistrano, NewRelic, Airbake, Rollbar, JenkinsCI, Redmine, Trello, Pivotal

## WORK POSITIONS

---

**Rubyroid Labs, LLC**

*Full-stack Software Engineer*

April 2015- Present

*Minsk, Belarus*

- Leded a project and a team.
- Developed a couple of Ruby gems for communicating with mBaaS ecosystem.
- Configured production server from scratch and setup automated Capistrano deployment for all the projects.
- Implemented backend service for mobile apps.
- Pursued the whole team to do TDD and code reviews.
- Worked on security-related features (IP whitelisting, XSS testing)
- Automated code reviews using Rubocop and CircleCI, wrote an article to my blog about it.

**Datarockets, LLC**

*Web Developer in Ruby department*

June 2014 - April 2015

*Minsk, Belarus*

- Participated in all stages of design and development on many projects.
- Leded a small team.
- Optimized some perfomance issues.
- Made fully-automated production server setup
- Did code reviews.
- Did a legacy project code refactoring.

- Did requirements gathering, directly communicated with clients.
- Planned some projects, sprints, created roadmaps.
- Developed some internal gems.
- Led the internal movement to open source some of the internal gems.
- Documented systems and infrastructure by creating textual and visual documents, as well as screencasts.
- Presented multiple times at the department meetings.
- Taught Junior developers.
- Maintained the Twitter account and team site.

## SOCIAL ACTIVITIES

---

### **Belarus Ruby User Group**

*Speaker*

June 2015

*Minsk, Belarus*

- Talked about our experience using gem 'cells' and other parts of Trailblazer (new architecture for Rails) framework. Video from the talk is available at my YouTube channel.

### **WrocLove.rb conference**

*Speaker*

April 2015

*Wroclaw, Poland*

- Talked about new way of designing Rails views, gem 'cells' from Trailblazer framework. Video from the talk is available at my YouTube channel.

### **Codementor.com**

*Mentor, Problem Solver*

June 2015 - Present

*Minsk, Belarus*

- Teach people how to code. Solve different problems and fix the issues. Have more than 30 successful sessions.

### **Meduim.com**

*Blogger*

May 2015 - Present

*Minsk, Belarus*

- Write mostly about programming, technologies, tech conferences and travelling.
